ONBOARD

TOP OF RAIL FRICTION MODIFIERS **LORAM**

DELIVERING IMPRESSIVE WHEEL/RAIL INTERACTION IMPROVEMENTS

ToR H₂O_X is a non-cavitating hybrid top of rail friction modifier offering exceptional carry down performance of up to 4-6 miles, requiring 22% - 50% less modifier to be applied than conventional top of rail friction modifiers.

WORKS IN EXTREME
TEMPERATURES & PROVEN
FOR USE IN ALL SEASONS

USE 22% - 50% LESS

DOWN DISTANCE

RS CLARE FRICTION MANAGEMENT SOLUTIONS

LUBRICANTS FOR INFRASTRUCTURE

CLARETECH BIOGLIDE SWITCHPLATE LUBRICATION

The choice for any operator who wants performance and environmental protection.

- Proven to extend lubrication intervals to 3-6 weeks
- Costs are significantly reduced to deliver long term savings
- Maintaining smooth switch performance for safe and efficient operations

ALL SEASONS P-WAY FISHPLATE LUBRICANT

Reducing safety risks on your network with a proven solution.

- Long lasting and highly water repellent
- High performance offering superior corrosion protection
- Simple to apply and typically lasts 2 years or more before reapplication

APPLICATION EQUIPMENT **LORAM**

INTELLIGENT FRICTION MANAGEMENT APPLICATION SYSTEMS

GaugeShield®

Trackside lubricator for precise gauge face grease application.

- Available in 2 sizes to best fit your needs
- Reduces fuel consumption
- Increases rail life
- Reduces wheel flange noise
- Remote monitor capable
- Easy maintenance dispensing bar

TracShield™

Patented trackside friction management system for Top of Rail delivering enhanced performance and accuracy.

- Reduce track maintenance costs
- Reduce fuel consumption
- Reduces lateral/vertical forces
- Reduces wheel/track and rail wear
- Reduces noise
- Reduces conditions that can cause derailment

INNOVATION SINCE 1748

RS CLARE IS A LEADING MANUFACTURER AND INNOVATOR OF SPECIALIST LUBRICANTS AND SURFACE COATINGS, SUPPLYING INTO A RANGE OF INDUSTRIES WORLDWIDE.

As the UK's leading supplier of curved rail greases, we are the partner of choice for Network Rail and London Underground, and most of the country's light rail networks. We have successfully expanded into rail markets all over the world, becoming the name associated with advanced and effective eco-friendly rail protection.

Our commitment to innovation is underpinned by our dedicated research and development teams focusing on continued product enhancement and development across all industries. We have made significant investment in a new technical centre at our Liverpool site that will feature fully equipped chemical formulation, quality control, analytical and mechanical test laboratories.

As we continue to innovate and grow our portfolio of rail products, we're also working with an established and recognised global partner to provide robust friction management solutions.

THE RS CLARE AND LORAM PARTNERSHIP

Combining RS Clare's market leading portfolio of innovative and high performing curved rail greases with Loram's world-class friction management application equipment and top of rail friction modifiers, our global partnership positions both RS Clare and Loram at the forefront of friction management solutions.
